Part 2 examination
(response within 5 business days)
- Grant**
PBR is granted
Certificate of Grant is issued
- Renewal**
PBR is due for renewal
(renewal due on anniversary of grant every year)

Dear PBR Owner,

Certificate No: 5493

Date of Grant: 19 September 2017

I am pleased to advise that your application for plant breeder's rights to the above variety has been successful. Your certificate of Plant Breeder's Rights (PBR) is enclosed. The legal description of the protected variety and colour photograph are available from the [Australian Plant Breeder's Rights Search](#) on our website. The address nominated in your Confirmation of Submission of Propagating Material to a Genetic Resource Centre form, is accepted as a suitable place for PBR purposes.

What will happen next

- An annual fee will fall due each year on the anniversary of the granting of the right (on 19 September, each year) and will be payable within 30 days of that date or the grant of plant breeder's rights will be revoked.

Things to be aware of

- Please note that it is your obligation to ensure a current address for correspondence and email contact are maintained throughout the life of the PBR. Failure to do so may result in the PBR being revoked without your knowledge.
- To make others aware of the protection, you are advised to clearly label all material sold according to the [industry](#)

Make an enquiry or provide feedback on our [website](#).

PBR application number 2016/155
Botanical name *Prunus avium*

[guidelines for labelling PBR](#) industry guidelines for labelling PBR available from the PBR website or by contacting this office.

- Applicants are reminded of their responsibilities when exercising their rights under PBR, particularly that they conform to other Commonwealth legislation on the use and movement of plant material. For example, importers of new varieties must comply with the requirements of biosecurity legislation, which provides powers to control the import of all plant products. For further information on responsibilities as an importer, please contact the Department of Agriculture and Water Resources.

Details of your application are viewable using our [Australian Plant Breeder's Rights Search](#) on our website.

Yours sincerely,

IP Australia
